Summary

Entry-level software developer candidate with formal Computer Science / Information Technology studies and hands-on technical project experience. Brings structured troubleshooting, routine hardware and software maintenance, reliable record keeping, and calm communication from fast-paced customer-facing work. Eager to learn from senior developers, contribute to code quality and testing, and support a collaborative development team.

Professional Experience

2025 – 2026 Port Elizabeth	Garden Cafe Waiter/Cashier - Recorded customer food and beverage orders accurately using the point-of-sale system. - Processed cash and card payments, checked bills, and handled daily transaction records responsibly. - Maintained clear communication with kitchen and front-of-house staff to ensure correct order delivery. - Worked efficiently during busy shifts while maintaining a professional and friendly service standard. - Assisted with stock checks, basic administrative tasks, and keeping work areas organised. - Resolved customer queries calmly and escalated issues when necessary.
2023 – 2026 Port Elizabeth	IT Support / Technical Projects Freelance/ Personal Projects - Diagnosed and resolved computer hardware and software issues using structured troubleshooting methods. - Performed routine maintenance and helped keep equipment, files and workspaces organised. - Worked independently to meet deadlines, strengthening problem-solving, persistence and attention to detail. - Built practical familiarity with investigating issues, documenting work clearly and communicating solutions.

Education

2023 – 2026 Port Elizabeth	Computer Science / Information Technology Emeris
2018 – 2023 Port Elizabeth	Bachelors Degree High School Education Cape Recife High School
